SUMMARY

Highly skilled and dedicated SAP Integration Developer with around six years of professional experience in designing and implementing robust integration solutions. I analyze business requirements, collaborate effectively with Clients, Cross-Functional Teams, Stakeholders to deliver scalable, efficient solutions alongside consistently achieve project objectives.

EXPERIENCE

Consultant — Deloitte USI | 05/2024 - Present

- Led the development of Integration objects for the LOG, LOG-TM, RTR and MDG S/4 HANA squads.
- Contributed to the Greenfield SAP S/4HANA implementation for a Healthcare client across three waves, integrating with multiple third-party systems and independently delivering 70+ interface objects.

Associate Consultant — Capgemini | 02/2021-05/2024

- Worked on Greenfield SAP S/4HANA implementation projects for two Utility clients.

Roles Performed across Accounts:

- Designed and implemented **scalable, efficient, and high-quality** Integration solutions aligned with Business requirements, Integration best practices and Technical architecture standards.
- Delivered **end-to-end Integrations** across SAP S/4HANA, SAP ECC, SAP C4C, SAP FMS, SAP Workflows, Salesforce, Microsoft SharePoint, Azure Blob Storage, Snowflake, 3PL providers and various third-party systems.
- Implemented **Event-Driven Architecture** using **SAP Event Mesh and Advanced Event Mesh (Solace)** including queues, topics, subscriptions and webhook configurations.
- Developed complex data transformation solutions using **Groovy Scripts, User Defined Functions (UDFs), XSLT, Graphical Message Mapping, Value Mapping and Standard Converters.**
- Designed and configured Integration flows using a wide range of SAP **Cloud Integration Adapters** including HTTP/REST, OData, SFTP, Mail, XI, AMQP, JMS, SOAP, Process Direct, IDoc, JDBC, Azure, AS2 and Open Connectors.
- Applied extensive knowledge of SAP **Cloud Integration capabilities** including Events, Mapping, Transformation, Calls, Routing, Security, Persistence, and Validation to develop robust integration scenarios.
- Designed and configured **APIs using SAP API Management** implementing appropriate policies for authentication, authorization, security, traffic management and API governance.
- Contributed to **Solution design and architecture** with a strong focus on scalability, maintainability, security, performance and SAP Integration best practices alongside utilization of SAP **Integration Advisor for EDI** mapping developments.
- Managed SAP **BTP Cockpit and Cloud Connector** configurations, including sub-account services, roles, subscriptions, service instances, certificates, Communication Systems, Communication Arrangements and RFC destinations in S/4 HANA for secure SAP and third-party connectivity.
- Implemented **data security and advanced error-handling mechanisms** including encryption, authentication, authorization, exception handling, custom alerts and failure-monitoring flows to support efficient troubleshooting and post-Go-Live operations.
- Performed **code reviews, root-cause analysis and Interface optimization** for existing integrations, improving reliability, performance and seamless data processing while supporting Operations Teams in resolving production issues.
- Successfully migrated **SAP Cloud Integration flows from Neo to Cloud Foundry** using Postman collections and conducted comprehensive integration/API testing using **Postman, SOAP UI, Mendelson (AS2)** and other external triggering tools prior to FUT.
- Prepared **technical documentation, unit test cases, test results and Functional Specification technical sections** while providing technical support to colleagues for timely sprint deliveries and **mentoring five young professionals**.
- Supported **Go-Live and Hypercare activities** including the rapid development of a client-requested **Error Monitoring Dashboard** improving visibility and monitoring of Integration failures.
- Leveraged **company approved Generative AI tools** to enhance development productivity and accelerate solution delivery.

EDUCATION

SRM University | Chennai, Tamil Nadu
Electronics and Communication Engineering | 07/2020
Passed with First Class

CERTIFICATES

- SAP Certified: Integration with SAP Integration Suite
- Microsoft Certified: Azure Fundamentals AZ900

SKILLS

- SAP Integration Suite
- SAP Cloud Integration
- SAP Business Platform Transformation (BTP)
- SAP API-Management
- Integration Advisor
- Advanced Event Mesh (Solace) & Event Mesh
- Critical Thinking & Problem Solving attitude.
